Humphries Training Team

Shawn Humphries has produced some of the top juniors in the country. Our Junior Performance Academy has produced over 1,000 tournament champions, National Champions, AJGA All American Team Members, and Junior World Champions. All graduating senior members from SHGP have received golf scholarships since 2003.

Series Training — Training environment is designed so students can train to learn. Each day work is done in different areas of their game, focusing on small group performance training. Short game training includes technique, putting skills / drills, chipping, and pitching. Full swing training is designed for the coaches and players to shape the student's swing together, give them a better understanding of their own personal golf swing and provide a mental checklist for each area of their game. Our goal is to provide training and skills in a fun, competitive environment. Most summer camps are a week long and in that time students just begin to learn and don't take home with them any consistency. In our 3-Week Series students have an opportunity to spend a week in each area of Putting, Chipping / Pitching, and Full Swing. At the same time working on the mental management part of their game every day. This Series is a true game changer for any student looking to learn, development, and build some serious skills to play the game.
